

Humidification Filter

Vaporization type long-life humidification filter

Humidification

Efficiency

Humidification

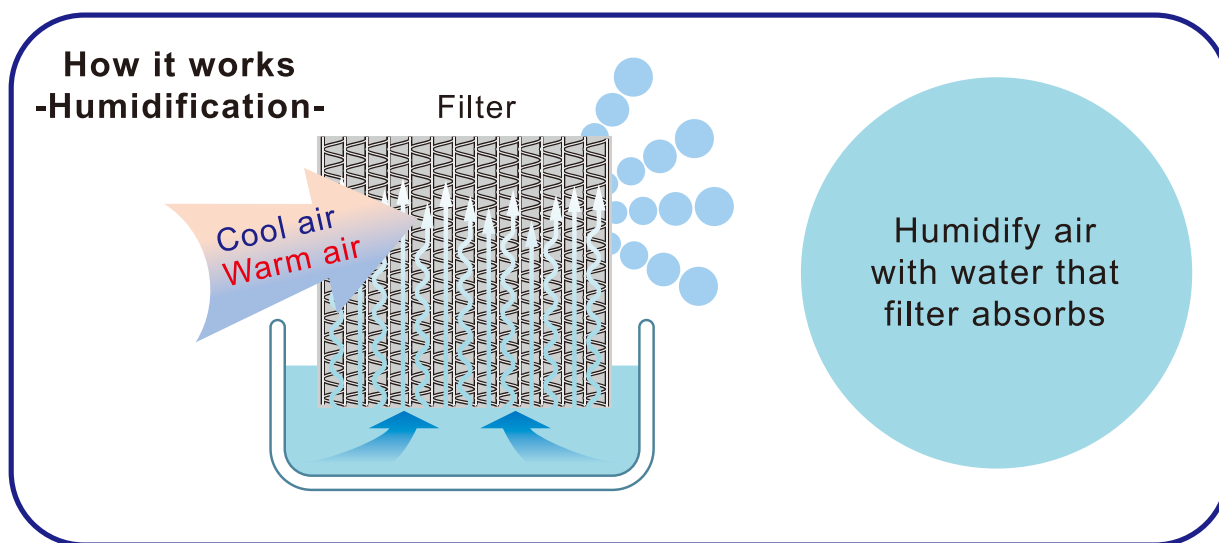

Ecology

USE

- Air purifier with humidifier
- Humidifier
- Evaporation plate for refrigerating/freezing showcase, etc.

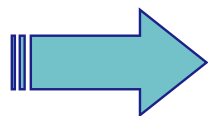

Features

Feature1 Excellent absorption performance and high humidification amount

Feature2 Hygienic and long-life filter with high retention capability of water and anti-bacterial and anti-fungal filter media

- Filter retains water well and is hard to dry, so that calcium hardly adhere.
- anti-bacterial and anti-fungal process restrains bacteria and fungi from occurring during use.

Long-life by cleanliness of filter

Feature3 Selectable filter form

Form can be chosen from Corrugated (Honeycomb) type / Pleats type.
Corrugated (Honeycomb) type is applicable to dripping type humidifier.
